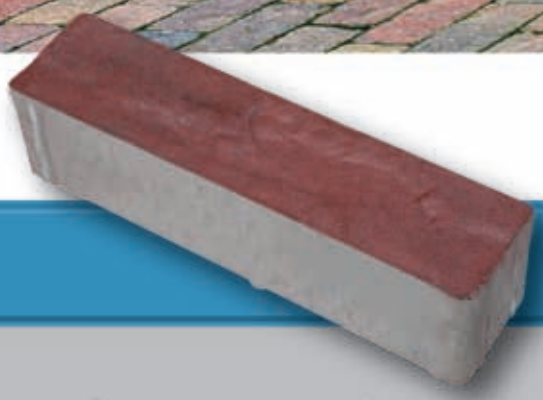
Basant® Betons

Warwick™ & Westminster™



Warwick™ & Westminster™

Warwick™ & Westminster™

Warwick™ & Westminster™ are pavers that suit any landscape. With its unique 4*4 criss-cross arrangement and such other patterns as Herringbone, Running Bond and Circular Designs, it captivates every eye that glances at them.

The surface of Warwick pavers is undulated and rustic. It does give a old world stone-age look especially when earthen colours/blends are used.

Whereas Westminster is a modern evolution of the rustic Warwick brick. This can be provided with different earthen-colour-blends or with shot-blasted effect. It can be used in combination with Basant Betons' other products, inclusive of flags.
